**Turbo** : Reach the set temperature fast by holding down the + button down.

**Silent** : Hold the – button down to select silent mode and quiet operation.

**1w Standby** : Provide savings of up to 80% more energy in stand-by mode.

**Self Detection** : Automatic shut down if refrigerant leak is detected.

Select Eco Mode for a comfortable sleep with an intelligent 8 hour cycle that uses less energy.

If unusual operations or a part failure occur, the unit will shut off automatically to protect the system. It will also indicate protection or error codes on the controller which allows engineers to quickly sort issues on-site or remotely.

Mission's sleek remote looks great and feels good. It's intuitive easy to use design gives you complete control at your fingertips.

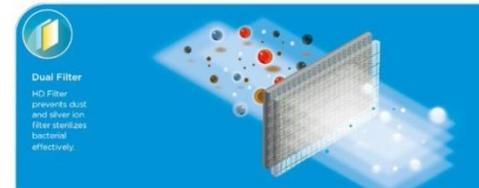

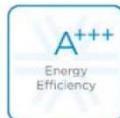

optional extra

Mission's WiFi and Smart Kits\* are designed for even more comfortable and easy operation.

- Online control
- Sleeping curve setting
- Temp zone setting
- Weekly timing

Mission  
Cool & Comfort
