- Front control
- Touch Control

### Dimensions

- Height: 5.5cm
- Width: 58cm
- Depth: 51cm
- Weight: 13.4kg

**Price:** €559.00

**Offer Price:** €499.00

**Warranty:** 3 Years on Parts & Labour

### Induction heating technology

Cleverly recognises the size of your pots and pans and saves you money on energy and bills. No heat or energy is wasted.

### Child lock

The child lock offers the ultimate peace of mind and maximum safety by preventing children from playing with the cooking settings.

### Easy to clean induction hob

Spillages from pans won't stick to the hob surface. Due to an induction hob's electromagnetic cooking technology.

### Maximum safety induction hob

Only the pan is heated up and hob turnsoff automatically when a pan is taken off. The possibility of accidents occurring is reduced.

### Smooth surface

The sleek design means you can move pans from burner to burner if required. cleaning it is easy and your kitchen looks great.

### Elegant design

Packed full of innovative technology, this built-in hob looks fantastic, sleek and modern

### Booster function

Cleverly boils on a built in induction hob, allowing each cooking zone to cook on maximum power then return to normal heat once boiled

### Heat indicators

For added safety, the heat indicators will display a visible 'H' to warn you if the hob has not cooled down enough reducing domestic accidents.
